

TOTAL REBUILD

Judge's House rules

All rise please for the Judge's House, a low-built property with a garage, roof garden and terrace in Justice Walk, Old Chelsea.

Totally rebuilt to incorporate the latest lifestyle technology, the house has full air conditioning, underfloor heating, computer-controlled and scene lighting, and an independently zoned sound system. There's outdoor sound too.

A wired computer network reaches all rooms and there's independent wi-fi on each floor. You can also

monitor the house remotely from your iPod, iPhone or iPad. There are five bedroom suites, a drawing room, dining room with dumb waiter, and a kitchen and breakfast room.

The property also has a media room, gym, wine room, and integral garage.

Eaton elegance and grandeur

A freehold mews house in Eaton Mews North has been totally rebuilt and interior designed by Finchatton to create a home of real elegance and grandeur.

Classically contemporary interiors featuring bespoke joinery and craftsmanship are integrated with modern technology such as underfloor heating, air conditioning and Crestron home management systems for media and lighting.

The three-bedroom house has access from both Lyall Street and Eaton Place, and front and rear windows on all three upper levels. It has almost more than 2400 sq ft of space on four floors linked by a grand staircase, and includes a dining room, drawing room, study and cinema room. Your vehicles will have a garage and two off-street parking spaces.
