REFURBISHMENT

Brompton Square update

East of Brompton Oratory and the V&A, a grand Grade II listed family house in Brompton Square has been updated in a high-spec refurbishment programme.

With its original staircase retained and solid wood flooring throughout, the five-bedroom property offers 21st century features such as Lutron lighting, air cooling and heating, a sound system controlled by Cambridge keypad, and a passenger lift.

The bespoke Poggenpohl kitchen has Gaggenau appliances and the breakfast room has folding doors to the garden. The first floor drawing room has access to the front and rear balcony via French windows, and on the lower ground floor is a cinema room and a handmade kitchen and bar for entertaining your guests.

The master suite has walnut wardrobes with LCD TV, and an en suite bathroom with hand made vanity units, marble floors with underfloor heating, bath with marble top and surround, Aquavision LCD TV, and a marble shower with special design marble floor and special effect wall plaster. The property includes a self-contained flat.

Wider than most

A ground and garden maisonette in Belgravia's Ebury Street is set in a period building far wider than its neighbouring contemporaries.

Close to the specialist retailers and niche outlets of Elizabeth Street and Victoria Street, the 1400 sq ft apartment has three bedrooms on its lower ground floor, which leads to a 23ft rear garden.

The master bedroom has an en suite bathroom, and there's a family bathroom and a laundry room. The ground floor contains a reception room, kitchen, and a dining room with a doorway leading out into the garden.
